

# Whaleback Times

April 15, 2019

The latest Whaleback Times from club president Greg Noonan:

A few notes...

## **Trail Conditions**

As I type, there is lots of snow on the trails...not sure what the weather will do to trail conditions over the next few days, but if you are interested in breathing in some fresh air and fitness head on up to the ski park. The chalet is opened each morning by 9:00AM and a fire is going in the woodstove.

## **Another wood party(female members required)**

There will be another morning where members will be needed to carry out a variety of tasks getting the chalet, stadium, groomer garage and snow mobile shed ready for the summer rest. There is all kinds of stuff to be doing up there. A note will be sent out after Easter with details encouraging you to drop up and lend a hand.

## **Locker clean out**

If you are a member who likes to have your locker cleaned out for the summer, its now time to think about doing it. Yes, it's time to remove those half eaten sandwiches, wet ski boots that refuse to dry out, and any other item of interest. Chalet is open daily...while up there, go for a ski!
