

# Whaleback Times

April 2, 2020

Hello once again...

## Grooming, where do we go from here?

Grooming will continue up to Easter Monday, April 13th. At that time a decision will be made whether to continue or discontinue grooming based on whether the trails have deteriorated to the point of poor skiing or general interest in skiing has dropped.

As you are aware, whether grooming takes place depends on how cold temperatures are during night time. If it is too warm, there isn't any sense firing up the BR 250. Also, as we move into April, the number of trails groomed daily will be reduced...don't be concerned, there will be plenty of trails to ski daily.

***I refer you to the Trail Report on our website for daily updates.***

## Kenny's Performance Bonus

Tomorrow, Friday, Kenny will be given his bonus. I thank members who have contributed, it has been the best year yet where members have responded. He has always been very grateful of our support.

## Unusual conclusion to our ski season

Over the next week or so I will be chatting (by email of course) with executive members on how we bring this season to a close. There is probably 100% chance our face to face AGM and Election of Officers will not be taking place during early May. With that said, stay tuned...I'll have an update after I had a chance to discuss things with the club's executive.

## Skis and poles for Sale

Received an email from Roy Bungay this morning. He has a pair of skate skis and poles for sale. Please contact him if interested.

Stay fit and sane.

Greg N.
