Whaleback Nordic Ski Club

Jackrabbit Program, 2021

The Whaleback Nordic Ski Club Jackrabbit Program, guided by Nordiq Canada Skill Development Program, is designed for our young cross country skiers (up to 12 years of age) who would like to learn or improve their cross country skiing skills in addition to enjoying the great outdoors with many old and new skiing friends. The program consists of three levels:

Bunny Rabbits – Age 5 and under

Jackrabbits – Ages 6-9

Track Attack – Ages 10-12

Children who are in the Bunny Rabbit Program group have to be accompanied by an adult. The Jackrabbit program is a volunteer run, fun family oriented program which provides a wonderful experience for young skiers! This is an 8-10 week program depending on the weather.

Please complete the contact information outlined below and forward to Megan Ryland or Whaleback Nordic Ski Club. Please check your email especially during those inclement weather days and check for announcements on our Whaleback Jackrabbit Facebook page!
